

Courts & Law Enforcement Management Information System

CLEMIS provides state-of-the-art technology, comprised of over 20 different applications for criminal justice and public safety agencies to communicate and share law enforcement data across large geographic areas to reduce and solve crime

CLEMIS is:

- One of the **first** and **largest** public safety consortiums in the nation
- Since 1968 a consortium of autonomous public safety agencies; Police, Fire, Prosecutor, Circuit Court and District Courts

CLEMIS Members:

CLEMIS Data*:

35 million
People Records

77 million
Address Records

9 million
Property Records

53 million
Various Identifiers

5 million
Citations

800,000
Crash Reports

8 million
Mugshots

3 million
Fingerprints

*Data as of 2017

Benefits of CLEMIS:

Increase Efficiency

Saves officers valuable time by electronically preparing reports, therefore providing more time on the streets preventing and solving crimes

Share Valuable Data

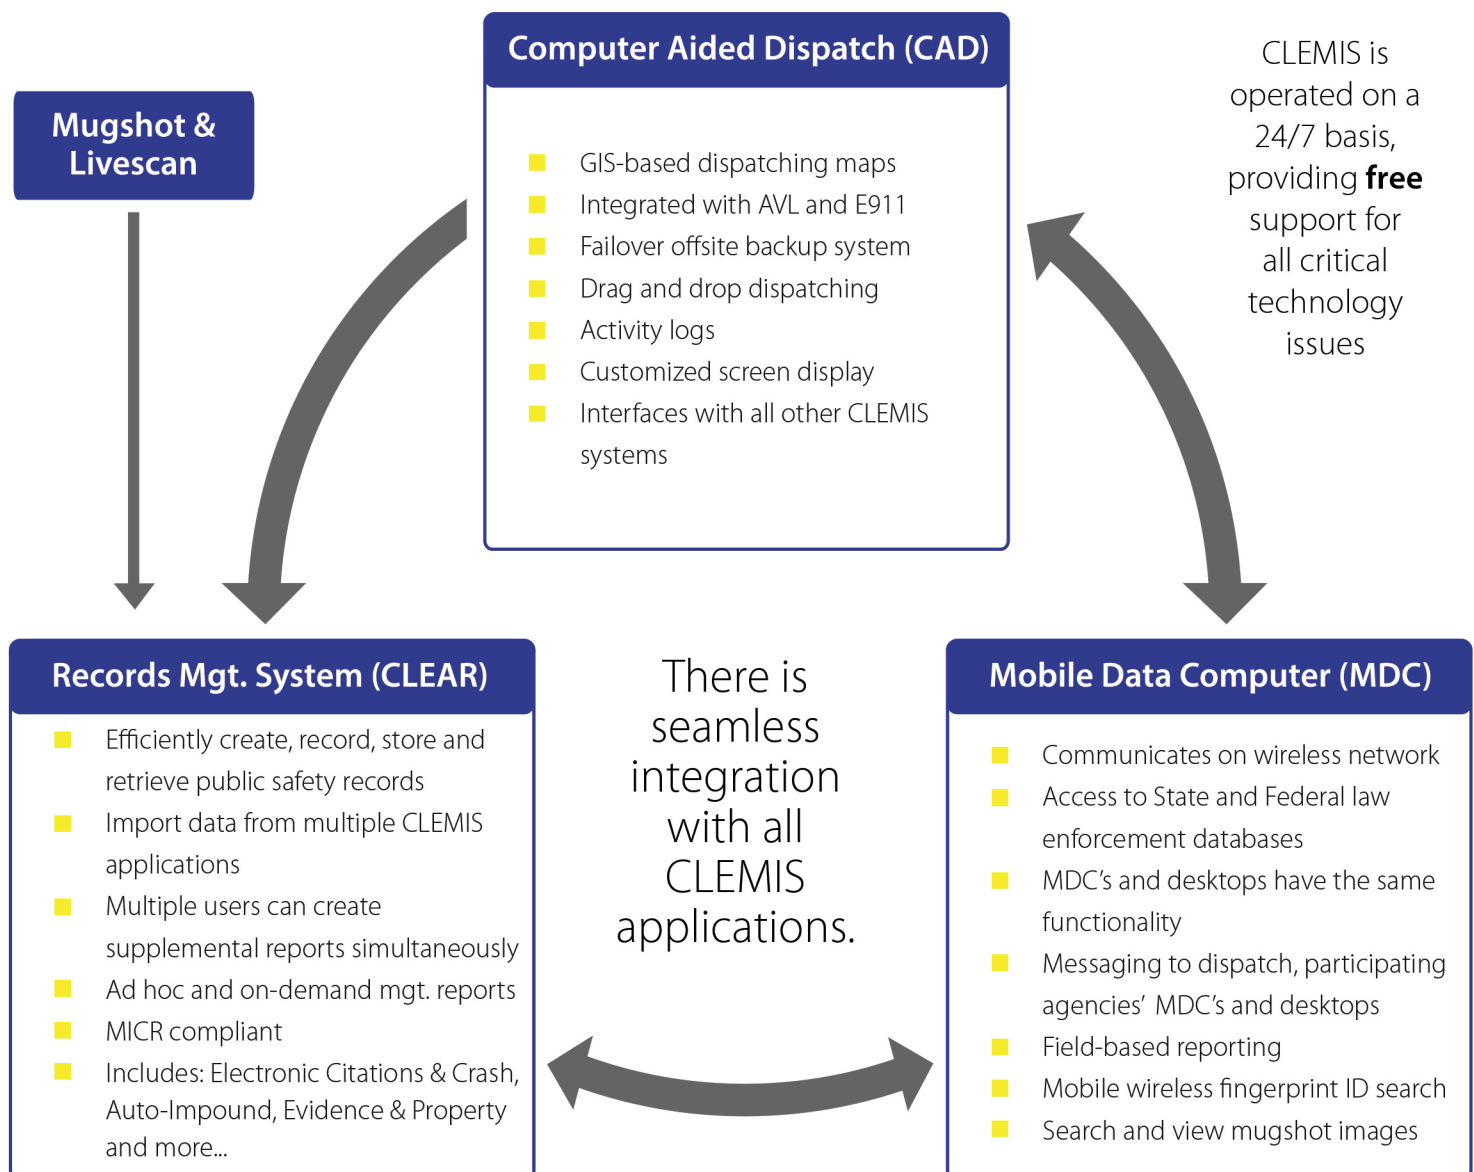

Public safety agencies share data and use advanced technology making officers, administrators and agencies better at quickly identifying suspects and solving crimes

Members Manage CLEMIS

Applications are developed by CLEMIS and are continually enhanced with the input from the CLEMIS consortium members

No Hidden Charges

CLEMIS members are never charged additional fees for training, application enhancements, software upgrades, or support

CLEMIS SEARCH is a data mining tool that retrieves information from all participating agencies with a single query. Search it once and see everything from the following CLEMIS data warehouses:

- CLEAR (RMS)
- Electronic Citations & Crash
- Calls for Service
- Auto-Impound
- Field Interviews
- Firearms
- Pawn
- State Parolee Data
- State Sex Offender Data
- Mugshot (Statewide)

CLEMIS members can SEARCH on various data fields, which include:

- Persons
- Aliases & "Street Names"
- Property
- Businesses
- Associates
- Addresses
- Most ID Numbers
- License Plates
- Arrests (Mugshots Displayed)
- Crime Incidents
- Narrative Word Search
- OPS & Email
- Phones, Faxes & Pager Numbers

One Stop Solutions for Public Safety Agencies:

CLEMIS is more than just one system and each application is designed to interface seamlessly system-wide while increasing efficiencies and improving the accuracy of the final record. CLEMIS provides:

- E911 Interface
- Computer Aided Dispatch (CAD)
- Mobile Data Computers (MDC)
- Records Management System (CLEAR)
- Electronic Citations & Crash
- Evidence & Property
- Auto-Impound
- Biometric Facial Images (Mugshot)
- Biometric Fingerprints (Livescan)
- Fire Records Management System (FRMS)
- Crime Mapping / CrimeView Dashboard
- Law Enforcement Information Network (LEIN) access via CORE TALON
- Video Arraignment (Oakvideo)
- InfoView Reporting Tool
- Online Citizens Police Reporting System (OCPRS)
- CLEMIS SEARCH
- Jail Management System (IMACS)
- Radio Comm. System Interface (OakWIN)

A faint, light blue map of Michigan serves as a background for the testimonials. The map shows the state's outline and internal county boundaries. Some counties in the southeastern part of the state are highlighted in a light yellow color.

"CLEMIS is an invaluable tool for police. As one of the largest law enforcement information sharing systems in the nation, its leading-edge technology enhances an officer's ability to collaborate with other agencies and solve or prevent crime." - **L. Brooks Patterson, Oakland County Executive & Former County Prosecutor**

"CLEMIS has been the public safety leader in southeast Michigan for more than 45 years. Through advanced technology CLEMIS brings maximum efficiency and a wide-range of the latest public safety tools to member agencies. It's now possible to provide the CLEMIS organization and this high quality technology to agencies both large and small across the state. CLEMIS is effective, efficient, and simply the most comprehensive system available and at a very competitive, affordable cost which won't break your budget."

- **David E. Molloy, Director of Public Safety/Chief of Police, City of Novi**

"CLEMIS member agencies provide their communities with the best services possible through effective information sharing. Through collaboration and sharing personnel, funds, and resources, CLEMIS has created a first-in-class law enforcement information system that is second to none. Sharing information through this well designed, integrated, easy to use and economically priced system plays a significant role in making us more efficient, effective and more responsive to the needs of our community."

- **Greg Bazick, Chief Deputy, Washtenaw Sheriff Office**

"The importance of technology and information in law enforcement cannot be stressed enough. CLEMIS has helped the Warren Police Department to keep current with the needed technology and information sharing with computer-aided dispatch, records management, property room management, prisoner processing, and many other needed functions. CLEMIS continues to be committed to upgrading and improving the technology needed to operate in this collaborative and information-based law enforcement community."

- **Jere Green, Commissioner, Warren Police Department**

"CLEMIS is very robust public safety technology. This system is designed with direct user input and built from the ground up to make the Sheriff's Office more effective, with a minimum amount of effort. Their 24/7 support, maintenance and continuous training comes without extra cost making our technology costs much more predictable. There have been no surprise fees or costs and no charge for updates or system changes. We wouldn't think of going elsewhere." - **Michael Bouchard, Oakland County Sheriff**
