

**EXHIBIT IX**

**SCOPE OF CONTRACTOR DELIVERABLES/FINANCIAL OBLIGATIONS**

- I. Provide animal control services throughout Oakland County on an as-needed basis in accordance with federal, state and local rules and regulations.
- II. Contractor will deliver specific deliverables that include, but are not limited to:
  - a. Removal of small mammals, rodents, birds, beavers, muskrats, raccoons, skunks, groundhogs, bats, squirrels, geese, mute swans, pigeons, opossums, coyotes, moles, rabbits, foxes, or stinging or nuisance insects
  - b. Installation of wildlife exclusion and deterrent devices
  - c. Canada goose abatement with trained dogs, goose egg removal and/ or nest destruction, the round-up and removal of geese, or the installation of goose exclusion and deterrent devices
- III. Contractor will complete the following tasks or activities as necessary:
  - a. Apply for permits and submit associated reports and maps to comply with local, state and federal permitting requirements and requesting County Agency or Department Best Management Practices (will be provided). Michigan Department of Natural Resources (MDNR) regulations include, but are not limited to:
    - i. Contractor(s) will be authorized for goose abatement services by MDNR.
    - ii. Contractor to verify attendance at, and completion of, MDNR approved Goose Management Nest Destruction Training Session in the form of an MDNR-authorized letter.
    - iii. Contractor agrees to abide by all MDNR rules and regulations governing nest/ egg destruction activities and permitted goose round-up and removal activities.
    - iv. Contractor(s) will provide Project Manager from the requesting County Agency or Department with copies of all nest destruction and goose round-up and removal data as submitted to the MDNR.
    - v. Nest/ egg destruction activities will be followed by harassment techniques prior to implementation of a goose round-up.
    - vi. Contractor and County Staff will collaborate to determine the appropriate goose abatement approach for each property. Facilities Maintenance schedule is to provide up to 15 services per week in the spring, before molt, and up to 15 visits per week in the fall when the crab apples fall, and up to 10 weekly visits for program maintenance. OCPR schedule will be determined by OCPR Natural Resources Coordinator, or designated staff.
  - b. Follow regional Best Management Practices that balance effective control and humane practices. Knowledge of, and relationships with, licensed Wildlife Rehabilitators should be highlighted in submittals when relevant.
  - c. Thoroughly clean equipment prior to arrival and upon departure from control locations to prevent the spread of invasive species and/or diseases.
- IV. Other requirements:
  - a. Animal confinement and removal devices must be clearly marked with the contractor's name, animal control license number and emergency contact information.

- b. Contractors shall coordinate property access with the Project Manager from the requesting County Agency or Department. Vehicles must have the contractor's name clearly visible to the general public.
- c. All work should minimize the risk to public and private property and pets. Employees should be appropriately trained and licensed and wear uniforms with the contractor's name clearly visible to the general public when on County property.
- d. Contractors shall provide project-specific written quotes following submitted schedule of rates and fees to the Project Manager from the requesting County Agency or Department detailing scope and cost of service and receive signature approval on the submitted quote prior to commencement of work.
- e. Contractors shall provide a description of the control measures used as well as any relevant biological data related to the nuisance animal(s) removed from the site(s) to the Project Manager from the requesting County Agency or Department following control.
- f. The Project Manager from the requesting County Agency or Department reserves the right to determine seasonal timing and methods of animal control operations based on critical periods of wildlife activity and/or breeding.
- g. Contractors shall furnish all required labor, materials, supplies, equipment, and required in connection with the project(s).

<b>Wildlife Control</b>	<b>Service Description</b>		<b>Unit</b>	<b>Price</b>	<b>Proposed Method</b>	<b>Comments</b>
<b>Skunk</b>	Removal	Set-up Fee	Each	\$399.00	Cage Trap 1-2	<b>Per General Location. Max 14 days</b>
		Animal Removal/Disposal	Each	\$99.00
