## Cooperative Purchasing Program

### Event Opt In

Oakland County Purchasing has developed an intergovernmental Cooperative Purchasing Program for use by other Michigan government entities and school districts, for the procurement of goods and/or services from County contracted vendors. There is no cost to the participants or vendors for taking part in this program. The purpose of the program is to obtain lower overall costs for all participants by obtaining increased volumes and purchasing power.

Oakland County requires that participating vendors authorize the use of their contracts with the County in the Cooperative Purchasing Program. Once authorized, vendors agree to supply goods and/or services at the established County contract prices, terms and conditions; based on the vendors quotation.

All transactions will be conducted between the participating governmental entity and the contracted vendor; orders will be submitted and invoiced directly. Payment will be remitted by the ordering government entities on a direct and individual basis with the contracted vendor, in accordance with the contract pricing and terms.

Consequently, all vendors that authorize the use of their awarded contract are to indicate by checking the appropriate option below.
