Rain Barrel REMINDERS!

Before:

- Check and clean out the barrel before using.
- Remove any old debris.
- Check for leaks.
- Check for damage to the barrel.
- Make sure the barrel is level.
- Add enough water to fill the barrel.
- Water will be used for irrigation.
- Do NOT drink.

After:

- Check and clean out the barrel to avoid flooding and debris.
- Check with a rain gauge to determine if rain water is needed.
