Virtual Planners Gathering

BEST PRACTICES IN Planning AND Zoning for Solar PV

NOTE: Eligible for 1.25 AICP CM credits

A local government's approach to zoning and development can have a significant impact on solar energy growth. The inclusion of solar energy planning and zoning best practices provides a foundation that can help facilitate the growth of solar energy, while balancing other development priorities in a community.

This free training course provides communities with strategies for incorporating solar into plans, ordinances, and development regulations—and is scheduled for 1.5 hours to ensure enough time to cover the technical details needed to implement best practices.

NOTE: This session will be recorded and available at [Tinyurl.com/4jwfeh3n](https://tinyurl.com/4jwfeh3n)

SPEAKERS

Nicole Card, Sustainability Specialist, Oakland County
Office of Sustainability

Deb Perry, Program Director of Clean Energy and
Climate Resiliency, International City/County Management
Association (ICMA)
