SUBJECT: Meadowbrook Contract Amendment for Construction Safety Consultant

Services on the NESPS Pumping and Electrical Upgrades and NI-EA

Rehabilitation Projects

DATE: September 16, 2020

On July 25, 2019, the Oakland-Macomb Interceptor Drain Drainage District (OMIDDD) approved Amendment 2 to the contract between Meadowbrook Insurance Group (MIG) and OMIDDD which authorized the use of a MIG construction safety consultant (CSC) on the Oakland Macomb Interceptor Drain Immediate Repairs Project and the Northeast Sewage Pumping Station Odor and Corrosion Control Project. The duties under that amendment only extended though September 1, 2020 at the conclusion of the NESPS Odor/Corrosion Project. However, we believe it is prudent to continue the services of the CSC to ensure proper safety protocols are being performed on the NESPS Pumping and Electrical Upgrades and North Interceptor-Eat Arm (NI-EA) Rehabilitation projects. As such the CSC will have the following duties for the these projects that are expected to be completed by September 2023:

- Coordinate with the NESPS maintenance manager (Terry Moore/METCO), engineer (Jacobs/NTH), contractor and GLWA to ensure proper/safe flow control operations, lockout/tagout and other applicable safety measures are being performed for the given repairs/tasks.
- Perform onsite safety inspections. Prepare daily reports of safety conditions and any issues.
- Oversee confined space operations and other work activities as needed to ensure conformance with applicable standards.
- Participate in any contractor safety meetings (daily/weekly/monthly)
- Identify any safety issues that arise. Work with the Owner/Engineer/Contractor to resolve.
- Review safety documentation to ensure conformance with applicable regulations.
- Coordinate/document badging process for personnel, including any visitor badging. Ensure
 proper badging procedures are being followed onsite. Remove any personnel that are not
 properly badged.

Amendment No. 4 to the existing contract #4724 with Meadowbrook has been created for the above scope of work for the not to exceed amount of \$600,000 (\$200,000/yr).

RECOMMENDED ACTION: Approve the attached Amendment 4 to Contract #4724 between OMIDDD and Meadowbrook Insurance Group to provide Construction Safety Consultant services on the NESPS Pumping and Electrical Upgrades Project and the NI-EA Rehabilitation Project.

Hello Sid and Joel,

On September 20, the contract for the provision of safety services needs to be amended to include the work already underway for the NEPS-NIEA OCIP. The compensation remains the same and the only thing being done here is adding the new OMMID NEPS-NIEA OCIP for the full duration of the project which is expected to conclude in approximately 3 years. The contract as amended has an annual limit of \$200,000 for professional services and expenses. In the first year of this contract, we expect to have billed \$186,000 for the period September 20, 2019 to September 20, 2020. As the project grows, we expect the charges for services to increase mostly for mileage and a contractually permitted escalation factor of 5% for professional services charges every two years beginning in September 20, 2021 which will be the second year since services began under Amendment #2 to the Contract.

Amendment #4 has been discussed with Brian Baker, Stephen Downing and both of you. It was agreed to add this amendment to the September 16, 2020 OMIDD Board Agenda for consideration. By copy of this email, I am forwarding this transmittal to Megan for distribution to the Board.

We have included with this transmittal, the quarterly invoice for the quarter September 20, 2020 to December 20, 2020. Upon Board approval, please process this invoice for payment when you can.

Please give me a call to discuss any questions you may have.

Thanks!

Sal

Recitals:

WHEREAS, the MID is a Michigan public body corporate established in accordance with Chapter 20 of the Drain Code, MCL 280.461 *et seq.*, and is under the jurisdiction of a statutory drainage board; and,

WHEREAS, the MID is an intracounty drain established in 2009 to acquire and improve certain sanitary sewer interceptors, pump stations, meters and appurtenant facilities originally constructed and owned by the City of Detroit to provide wastewater transportation and disposal services to 11 communities located east of the International Transmission Company corridor within Macomb County; and,

WHEREAS, the OMID is a Michigan public body corporate established in accordance with Chapter 21 of Michigan Public Act 40 of the Public Acts of 1956, as amended (the "Drain Code"), MCL 280.511 *et seq.*, under the jurisdiction of a statutory drainage board; and,

WHEREAS, the OMID is an intercounty drain established in 2009 to acquire, improve, operate and maintain certain sanitary sewer interceptors, pump stations, meters and appurtenant facilities originally constructed and owned by the City of Detroit to provide wastewater transportation and disposal services to 23 communities within Oakland and Macomb counties; and,

WHEREAS, the MID desires to perform slip lining on a portion of the Romeo Arm sewer and related appurtenances, as identified in the approved plans and specifications ("Plans and Specifications") prepared by FK Engineering Associates, dated April 21, 2020, commonly known as the "Romeo Arm Lining – Segment 5 Project," FKE Project Number 19-134 (the "Project"); and,

WHEREAS, the Parties agree that the Project will likewise benefit the OMID, and the Parties have concluded that the Project can be constructed most economically and efficiently by the MID through the exercise of the powers conferred by the Drain Code; and,

WHEREAS, Plans and Specifications for the Project and an estimate of the OMID borne costs thereof, herein referred to as the Estimated Cost of the Project, have been prepared, and approved by the OMID and the MID, said estimate of cost being set forth in Exhibit A; and,

WHEREAS, in accordance with the terms and conditions set forth in this Contract, the OMID has agreed to pay a portion of the Project estimated to cost \$562,500.00 in accordance with the accepted bid for the Project received from Oscar Renda Contracting; and,

WHEREAS, pursuant to Sections 471 and 523 of the Drain Code, the Parties are authorized to execute this Contract according to the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of these premises and the mutual promises, representations, and Contracts set forth in this Contract, and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the OMID and the MID mutually agree as follows:

Article I. Statement of Authority and Purpose; Project and Estimate of Cost.

- 1.1 <u>Authority</u>. Pursuant to the Drain Code, specifically MCL 280.471 and 280.523, and any other applicable laws of the State of Michigan, the MID and the OMID enter into this Contract to establish terms and conditions for the Project. Each Party agrees to take all actions reasonably necessary to effectuate the objectives set forth in this Contract.
- 1.2 <u>Purpose.</u> The Parties agree and approve the Project, as provided herein, and approve the designation of the "Romeo Arm Lining Segment 5 Project" as the name of the Project. The Project is described in the approved Plans and Specifications prepared by FK Engineering Associates, dated April 21, 2020, FKE Project Number 19-134, which includes the following scope: (A1) Removal and Disposal of Sludge, Debris, and Sediments, PCI-7 MH-111 to CS-4; (A2) Slip Lining PCI-7 MH-111 to CS-4 with GFRPMP; and (A3) Manhole PCI-7 MH-111 Spray Lining.
- 1.3 Project and Estimated Cost of the Project; Final Plans and Specifications; Variations. The Project shall consist of the lining of the facilities as described and specified in the Plans and Specifications which are on file with the MID and are incorporated by reference as part of this Contract. The Project shall be constructed substantially in accordance with the Plans and Specifications, prepared and submitted by the consulting engineers, with the understanding of the Parties that variations therefrom that do not materially change the location, capacity or overall design of the Project, and do not require an increase in the total estimated cost of the Project, may be permitted on the sole authority of the MID. Other variations or changes may be made if approved by the MID and the OMID and if provisions required by Section 2.2 are made for the payment of any resulting increase in the total Estimated Cost of the Project. The Estimated Cost of the OMID borne portion of the Project in the amount of \$562,500.00 as set forth in Exhibit A, is approved and adopted. In addition, to the amount set forth in Exhibit A, OMID agrees to pay an amount not to exceed \$56,069.00 for Construction Contract Administration (CCA) services provided by FK Engineering in accordance with a separate agreement between MID and FK Engineering.

Article II. MID Responsibilities.

- 2.1 The MID shall proceed to:
 - (a) enter into construction contracts for the Project;
 - (b) procure from the contractor(s) all necessary and proper bonds;
 - (c) cause the Project to be constructed; and,
 - (d) do all other things required by this Contract and Michigan law and regulations.
- 2.2 Project Variations and Change Orders. The MID shall have sole authority to approve variations or changes during construction that do not materially change the location, capacity or overall design of the Project, and do not require an increase in the Estimated Cost of the Project. Except as otherwise provided herein, in the event that it shall be necessary to increase the Estimated Cost of the Project for any reason, or if the actual cost of the Project shall exceed the Estimated of Cost of the Project, whether as the result of variations or changes made in the approved plans or otherwise, then the OMID shall not be obligated to pay such increase or excess cost unless the governing body of the OMID shall have adopted a resolution approving such increase or excess and agreeing that the same (or such part thereof as is not available from other sources) shall be defrayed by increased or additional payments agreed to be made by the OMID in the manner as hereinafter provided.
- 2.3 Contract Administration. The MID will be responsible for contract administration. The MID is hereby authorized, but not required to utilize Macomb County personnel and/or retain the services of a third-party engineering firm to perform contract administration for the Project. The payment for such services shall be the responsibilities of the Parties and allocated between the Parties in accordance with Article III, as part of the cost of the Project. All certificates required for payments to contractors shall be approved by the consulting engineers before presentation to the MID, and the MID shall be entitled to rely on such approval in making payments.

It is understood that MID has an agreement with FK Engineering to provide CCA services, in an amount not to exceed \$2,528,703, in accordance with the proposal and fee schedule dated August 5, 2020, as revised September 4, 2020 and attached as **Exhibit B**. OMID's allocated share for CCA services shall not exceed \$56,069.00.

- 2.4 <u>Contractor Insurance</u>. The MID shall require all contractors engaged for the Project to provide commercial general liability, umbrella or excess coverage, workers' compensation, and other insurance, as deemed necessary by the MID; and shall require the contractors to name or provide an endorsement naming the MID, the OMID, the Michigan Department of Agriculture and Rural Development, Macomb County, Oakland County, and their respective elected officials, officers and employees, as additional insureds under the required insurance.
- 2.5 <u>Property Access</u>. To the extent the Project requires access rights, the OMID will cooperate and assist the MID with obtaining and securing the right of access to all public and private

property necessary for the Project. The costs associated with securing the right of access necessary for the Project shall be allocated between the Parties in accordance with Article III, as part of the cost of the Project, and regardless of whether said expense exceeds the Estimated Cost of the Project as set forth in **Exhibit A**.

- 2.6 <u>Permits.</u> The OMID will cooperate and assist the MID with obtaining and securing all licenses, permits, certificates, and governmental authorizations necessary to perform all of its obligations under this Contract. The cost for securing the same shall be the responsibilities of the Parties and allocated between the Parties in accordance with Article III, as part of the cost of the Project, and regardless of whether said expense exceeds the Estimated Cost of the Project as set forth in **Exhibit A**.
- 2.7 <u>Compliance with Laws and Regulations</u>. The Parties will comply with all federal and state laws, regulations, and requirements applicable to the obligations under this Contract.
- 2.8 <u>Ownership, Operation and Maintenance</u>. After completion of the Project, the MID shall be the owner of the Project and shall be responsible for its operation and maintenance.

Article III. Consideration and Payment of Project Costs.

- 3.1 Consideration and Payment of Project Costs. In consideration of the conditions set forth in this Contract, the MID will pay the Project Cost out of available funds, and the OMID agrees to reimburse the MID the estimated cost based on the accepted bid received from Oscar Renda Contracting in the amount of \$562,500.00, subject to Project Variations and Change Orders, if any (to the extent such Project Variation and Change Orders affect the portion of the Project described herein) as set forth in Section 2.2. Upon written request, the Parties will provide to each other all relevant documentation evidencing the final costs of the Project. The Parties shall have the right to inspect and review all documentation evidencing the final total costs of the Project.
- 3.2 Project Costs and Overhead. The MID shall be responsible for all administration and construction Costs and Overhead (including attorney fees and all dispute resolution costs) of the Project, all costs and expenses relating to lawsuits as described in Section 3.3 and all costs described herein, in the same manner as provided in Section 3.1 with respect to other costs of the Project. The Parties agree that the term "Costs" shall be defined in this Contract as the labor, including statutory and customary fringe benefits, overtime, material and supplies, power and utility services, vehicle/equipment rental and subcontractor services devoted specifically to the Project, and any other costs identified in this Contract. The term "Overhead" shall be defined in this Contract to include the following: all allocation of the labor cost, including statutory and customary fringe benefits of personnel responsible for administering this Contract or supervising the work performed in conjunction with this Contract; an allocation of expenses of the MID and the OMID for the Project; and an allocation of the indirect cost of the MID and the OMID charged to Macomb County or Oakland County for support services, such as (but not limited to) legal, personnel, accounting, computer support and insurance/risk management for the Project.

- 3.3 <u>Liability and Claims; Selection of Legal Counsel.</u>
 - 1. The Parties agree the costs and expenses of any lawsuits or claims arising directly out of this Contract or the construction of the Project, to the extent that such costs and expenses are chargeable to the MID or the OMID, shall be deemed to constitute a part of the cost of the Project and shall be paid and allocated between the Parties in accordance with Article III, as part of the cost of the Project and regardless whether said expense exceeds the Estimated Cost of the Project as set forth in **Exhibit A**. In the event of litigation against the MID in relation to the Project, the MID will consult with the OMID and retain legal counsel agreeable to the MID and the OMID to represent the MID; provided that, if the MID and the OMID cannot agree as to such representation within a reasonable time, the MID shall exercise its discretion and retain legal counsel. This paragraph shall not apply to a lawsuit instituted by the MID or the OMID to enforce its rights under this Contract.

Article IV. Effective Date; and Term.

- 4.1 <u>Effective Date</u>. This Contract shall become effective upon the approval by resolutions of the drainage boards of the MID and of the OMID; and execution by each Party.
- 4.2. <u>Term.</u> This contract shall terminate upon completion of the Project.

- HVAC Improvements Substantial Completion: June 28, 2020, complete.

Status of Major Project Tasks:

- Bi-weekly construction progress meetings continue in a virtual format.
- The installation of the biotrickling filter (BTF), odor control fans, odorous air ducting, and related components have been completed. The biotrickling filter startup and commissioning process began on April 21, 2020 and was switched to begin operating in normal operation mode on Friday, July 31, 2020.Odor loggers have been installed to temporarily monitor inlet and outlet H₂S concentrations to monitor performance. The manufacturer's technical startup team arrived on site on Monday, Aug. 17, 2020 following previous delays due to Covid-19 travel restrictions. Final adjustments and punch list activities ensued, with performance testing on Thursday, August 20, 2020. The system appears to be performing as anticipated. Additional punchlist items remain outstanding relating to the biotrickling filter and are expected to be completed in the month of September 2020.
- Electrical and controls wiring installation activities have been completed inside the station to
 provide power and controls to various components of the new HVAC system. Startup and
 commissioning of the HVAC system has commenced, and only minor final adjustments remain as
 the system continues in normal operation.

 operational. HVAC control system components including the master control panel, gas detection
 panel, and associated strobes, beacons, instruments, and devices have arrived on site and all have
 been installed. Following final completion of power and controls wiring and conduits in June 2020,
 these components have been integrated into one fully functioning HVAC control system (including
 SCADA) and final startup and commissioning is ongoing.
- Site grading for the BTF pad and adjacent areas have been completed; grade has been set and
 hydroseeding has been completed and turf growth established, with final adjustments to take
 place during punch list activities. Final aggregate base and concrete paving work will be deleted
 from the Odor/Corrosion Control project and added to the upcoming Pump and Electrical
 Rehabilitation project.
- Project has exceeded the revised final completion of August 28, 2020, largely due to travel
 restrictions relating to covid-19. However, only a few punchlist items remain and are expected to
 be completed in the month of September 2020.

budget; Does not include Metco budget for ongoing

maintenance.

Schedule Status: Ongoing

Advance modifications to facilitate the "Emergency Contingency Plan" are underway to allow pumping in the event of total power loss at NESPS or other catastrophic failure in the system:

- Drawings for modifications to accommodate upstream emergency pumping have been issued for procurement of contractors. Negotiation with contractors is in progress.
- Plan to energize OMID Pump 4 in event of total power loss is complete; A demonstration of the portable generator was completed and start of work is pending.
- Advanced emergency plan document to include pumping details and traffic control from pump out locations is drafted and being reviewed by technical team.

Additional work being performed under Metco Maintenance Contract for NESPS:

- Mechanical and Electrical corrective/preventative maintenance schedules continue to proceed without problem. Shutdown coordination with GLWA Operations for such tasks is working well.
- Monthly Maintenance Contractor meeting held. General maintenance topics discussed.
- Working with GLWA Systems Control on a more balanced approach to Sanitary Pump run time.

Overall Station Performance Report:

- Sanitary Pumps #1, #2, #4, #5 and #6 remain ready for duty. (650 CFS Capacity).
- Sanitary Pump #1 Motor, Shafting and all related components has been installed and tested on July 28th and Aug 10th. GLWA and their sub-contractors ran the Pump through various run sequences (Local, Auto and Emergency stop modes of operation). During the July 28th test, pump shaft bearing noise, excessive heat and oil leakage derailed extended runtime. After addressing shaft bearing issues a re-test on Aug 10th satisfied GLWA's assessment and Pump #1 was officially returned to regular service on Sept. 2, 2020 by GLWA.
- Regarding Sanitary Pump #4, Eaton Electrical Technicians completed Medium Voltage VFD
 Inspections and Preventative Maintenance. No major issues found. Minor corrective work has
 been scheduled. Full report to be filed.
- Routine Bi-Monthly Motor Maintenance scheduled for end of September.
- Service Elevator rehabilitation in progress. Elevator contractor reported that the rehabilitation efforts are progressing well and that the expected turnaround is October 1st.
- 4 Ton Outdoor Crane rehabilitation is complete. New Motor/Hoist installed. 4 Ton Certification load test passed without any issues. Operations and Maintenance Manual along with Test Certification Certificate received. Currently tagged out of service due to a minor electrical conduit issue.
- Repair of the Dewatering Pump and the replacement of knife gates in the dry pit remain contingent on outstanding work to be performed at CS-5 (transducer replacement), MID support, and Lockout/Tagout finalization.

- Stand-by Generator Programmable Logic Controller (PLC) scheduled for upgrade. Parts ordered with an anticipated five-week lead time on delivery per contractor.
- Stand-by Generator Diesel Tank and Fuel Line rehab project. Kick off meeting in process of scheduling. Work anticipated to start in late September.
- BioAir completed on site training and punchlist corrective items Aug 17 thru Aug 19th.
- Regarding Bio Filter Performance, H2S and PH levels are monitored and recorded daily, and readings are reported to BioAir with adjustments made accordingly. Current efficiency levels range at the 99% removal rate.
- New odor complaint received from EGLE 2pm Friday, Sept 9th. Station conditions at time of complaint were normal (dry weather, light winds out of the west, one sanitary pump in operation). Hala Baroudi (EGLE) was informed.
- Jacobs and their representatives performed a walkthrough or sniff-around of the Bio Filter- Pumpstation area Wed, Sept 9th where there were reported very slight smells in the area.
- Overall General Housekeeping tasks in order. Overall Grounds keeping tasks are also in order.
